

In My Dreams
By
Christine Morris 1997

C **F**
Save me the trees on this planet of ours,
G **C**
Save me the plants and the sweet- smelling flowers,
F
Save me a river and a lake and a stream,
C **G** **C**
Save me all this then I can dream.

F
And in my dreams, I will see the stars in the sky,
G **C**
And in my dreams, I will see the birds flying high
F
And in my dreams, I will see the joy that life brings,
C **G** **C**
And in my dreams, I will hear people sing.

C **F**
Save me the dolphins riding high on the waves,
G **C**
Save me the whales and the song that they gave
F
Save me the forests, give me clean air to breathe
C **G** **C**
Save me all this then I can dream.

And in my dreams, I will see the stars in the sky,
And in my dreams, I will see the birds flying high
And in my dreams, I will see the joy that life brings,
And in my dreams, I will hear people sing.

Save me a sunrise on a cold, frosty day,
Save me a sunset when I come in from play,
Save me a raindrop, falling down fresh and clean,
Save me all this then I can dream.

And in my dreams, I will see the stars in the sky,
And in my dreams, I will see the birds flying high
And in my dreams, I will see the joy that life brings,
And in my dreams, I will hear people sing.
